High-tech Prescription Lenses

Providing a level of vision never before available

emPower! is the first electronic-focusing eyewear — with a tilt of your chin, it adjusts so you don't have to.

emPower!™ Eyewear uses advanced electronics to instantly adjust as your vision needs change. Eliminate distortion caused by progressive lenses!

Now available!

lifeactivated.com

iZon® High Resolution Eyeglass Lenses - a quantum leap forward in vision correction. Using revolutionary technology, iZon Lenses offer a new standard for perfect vision. You'll see with far more sharpness, contrast and clarity than ever before possible, *both day and night.*
